

SMART WEIGHING SOLUTION

For Client-Server Configuration

Communication	:	RS232, RS485, Bluetooth, Ethernet, Over the network, RF module etc.
Indicator	:	Supports a wide range of Indicators
Weighing Options	:	Sales weighment, Purchase weighment, Tare weighment
Databases	:	Truck, Driver, Transport, Location, Material, Customer, Supplier, PO, PR etc.
Back-office scope	:	Yes.
Report formats	:	A wide range of report formats with filter option
Ticket formats	:	A wide range of ticket formats are available (Customizable)
Extra input fields	:	A user can create 6 extra fields and customize it
Tare weight storing	:	Can store a tare weight for some days.
PC Specification(Client)	:	Windows 10 or higher
	:	4 GB Ram
	:	500 GB SSD Storage
	:	Intel I3 processor or higher
PC Specification(Server):	:	Windows 10 or higher
	:	8 GB Ram
	:	1TB SSD Storage
	:	Intel I5 processor or higher
Network selection	:	All the client PC should connect to network server through ethernet cable
	:	Folder must be shared on the network
	:	File transfer speed must be more than 10MBps
